EDUCATION

Motilal Nehru National Institute of Technology (MNNIT) <i>Bachelor of Technology, Computer Science and Engineering (CPI: 8.47 / 5th Sem)</i>	2023 – Present Prayagraj, India
ST. Paul Public School <i>Intermediate (CBSE) – 90.2%</i>	2022 Begusarai, India
Buddha Woodland School <i>High School (CBSE) – 92.4%</i>	2020 Samastipur, India

PERSONAL PROJECTS

Secondbrain — <u>GitHub Repo</u> – Built an AI-powered knowledge assistant using Next.js, FastAPI, Firebase, FAISS, and Ollama. – Developed a RAG-based semantic search pipeline using Sentence Transformers, FAISS, and LLMs for context-aware PDF querying. – Implemented secure authentication with Firebase Google OAuth, JWT, and bcrypt hashing. – Designed AI-driven dashboards for quiz generation, analytics, learning insights and topic coverage tracking.	April 2026
AI Pathfinder — <u>GitHub Repo</u> – Built an AI-powered career platform using Next.js, TypeScript, PostgreSQL, Drizzle ORM, and Ollama LLMs. – Developed AI Resume Analyzer with ATS scoring, resume parsing, and personalized career recommendations. – Engineered intelligent modules including Skill Gap Analyzer, Weekly Planner Generator, and AI Mock Interview system with persistent history tracking and dashboard analytics. – Designed a scalable full-stack application with Clerk authentication, REST APIs, and responsive dashboard UI.	Dec 2025
Stock Price Prediction Model — <u>GitHub Repo</u> – Built an LSTM-based AI stock prediction model achieving 85% short-term forecasting accuracy. – Developed stock trend forecasting pipelines using Python, TensorFlow, and Scikit-learn. – Integrated sentiment analysis with TextBlob, improving prediction accuracy by 12%. – Visualized financial trends and model performance using Matplotlib and real-time market data.	Dec 2024

TECHNICAL SKILLS AND INTERESTS

Languages: C, C++, Python, JavaScript
Frameworks/Libraries: React.js, Next.js, FastAPI, Express.js, OpenCV, Tailwind CSS
AI/ML Technologies: Generative AI, RAG, LLMs, Sentence Transformers, FAISS, TensorFlow, Scikit-learn, NLP
Cloud/Databases: Firebase, MongoDB, SQLite, PostgreSQL
Developer Tools: Git, GitHub, VS Code, Ollama, Postman
Coursework: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
Interests: Generative AI, Machine Learning, AI Systems, Full Stack Development, DSA

ACHIEVEMENTS

Amazon ML Challenge 2025 – Ranked among the **top 10% nationwide** for developing scalable machine learning and predictive modeling solutions on large-scale datasets.

Adobe India Hackathon 2025 – Achieved **top 2% rank** among 2.6L+ participants by building an AI-powered PDF outline extraction system using Python and Docker.

Cisco ThingQbator Cohort 8.0 – Selected for the national innovation cohort to develop an AI-driven career pathfinder platform using Generative AI and full-stack technologies.

ACM–ICPC Online Qualifier 2024 and 2025 – Secured **AIR 1580** in the national-level ICPC preliminary programming contest organized by CodeChef.

Leadership & Collaboration – Led technical and cross-functional initiatives across Enactus MNNIT, E-Cell, and the Dramatics Society through event management, R&D coordination, and team collaboration.
